SKILLS

- Python
- TensorFlow
- PyTorch
- SQL
- Docker
- Data Visualization
- A/B Testing

CERTIFICATIONS

- TensorFlow Developer Certificate
- Deep Learning Specialization – Coursera

HOBBIES

Photography, badminton, blogging about ML.

Career Objective

Machine learning engineer with 3 years of experience building production ML pipelines. Focused on NLP and recommendation systems, looking to drive impact at a product-led company.

Education

M.Tech in Data Science — IIIT Bangalore, 2020 – 2022

B.Tech in Electronics — NIT Trichy, 2016 – 2020

Experience

ML Engineer — Vantage AI (Jan 2022 – Present)

- Built a recommendation engine increasing click-through rate by 18%.
- Deployed NLP models for sentiment analysis serving 2M+ requests/day.

Data Science Intern — Loop Analytics (May 2021 – Dec 2021)

- Built churn prediction models improving retention campaign targeting by 25%.

Projects

Resume Screening Bot — Automated candidate shortlisting tool using transformer-based embeddings and cosine similarity ranking.

Stock Sentiment Tracker — Scrapes financial news and scores sentiment using a fine-tuned BERT model.

Achievements

- Best Paper Award, Regional AI Conference 2021.
- Mentored 5 junior engineers as part of an internal ML guild.
